

Procedure of the Sarasavi Saviya Scholarship Scheme

The Sarasavi Saviya Scholarship Scheme, spearheaded by the Career Guidance Unit, is committed to providing financial aid to deserving students at our university. This initiative aims to empower talented individuals who face financial challenges, enabling them to pursue their education and achieve their academic goals.

Application and Selection Process

1. Request for Assistance:

- Students seeking financial help submit their requests to the Dean's Office.

2. Notification of Scholarship Opportunities:

- When a scholarship opportunity arises, the academic staff and all students are informed about it.

3. Sponsor Selection:

- Interested sponsors are provided with students' request letters and other relevant information. Sponsors can then choose the student they wish to support based on their personal preferences and criteria.

Acknowledgment and Monitoring

4. Gratitude Letter:

- Once a sponsor confirms their willingness to support a student, a gratitude letter from the Dean of the faculty is issued to the sponsor.

5. Monthly Meetings:

- To ensure the sponsor's investment is effectively utilized and to monitor the student's progress, monthly meetings between the sponsor and the student are arranged. These meetings are crucial for discussing academic performance and any other concerns, ensuring that the sponsorship is making a meaningful impact.

Special Considerations

6. Female Students and Male Sponsors:

- In situations where the sponsor is male and the student is female, additional measures are taken to ensure the comfort and safety of all parties involved. A female facilitator, typically a lady teacher from the university, is arranged to attend these meetings.
- The facilitator provides regular reports to both the sponsor and the Career Guidance Unit (CGU).

Conclusion

Your involvement in the Sarasavi Saviya Scholarship Scheme can make a significant difference in the lives of young students. By supporting their education, you are not only helping them achieve their dreams but also contributing to the development of a skilled and educated workforce for the future.
